

Naming Recommendation For the City's 2nd Wastewater Treatment Plant

Recommended Name: FM 1978 Water Reclamation Facility

Statement of Appropriateness: Utilizes the closest major public road for the location identifier, which is FM 1978. Utilizes, “water reclamation facility,” as the facility descriptor due to the wastewater treatment plant having Type 1 reuse treatment functionality and will provide a second source of reclaimed water which expands potable water conservation capability in the city.

Cost to Implement Name: No additional cost to implement. Signage and plaque are included in the FM 1978 Water Reclamation Facility progressive design-build project.

Council Action Request: Approve the recommended name, FM 1978 Water Reclamation Facility.
