Re: River Bridge Ranch - Tax ID 92442 (Hays)
LJA Project No. A208-0452.301

Dear Ms. Hernandez,

Please find enclosed a package including the zoning application and backup for a requested change from the zoning approved with the Settlement Agreement between "The Mayan at San Marcos River, LLC" and the City of San Marcos, filed December 17, 2020, to correctly reflect the planned development as depicted on numerous submittals on file with the City, including a preliminary plat (PC-22-47); Public Improvement Construction Plan (2022-44337) and watershed applications in conjunction with the PICP. In addition, a Traffic Impact Analysis (TIA) was approved 11/15/2022 and permit 2022-43615 was issued.

The applicant, Lennar Homes of Texas, is developing the property as a master planned residential development with a variety of lot sizes and residential uses. As such, the CD-3 zoning classification is appropriate for all proposed uses of the master plan, while the CD-5 zoning is not appropriate as it does not permit single family residential uses. Rather than deviate from the approved CD-5 zoning in the Settlement Agreement, the applicant proposes to rezone the property to a consistent use with the proposed master plan. In addition, to minimize confusion in permitting and facilitate review of building permits, CD-4 zoning is proposed to be changed to CD-3 to ensure uniform zoning across the project. An exhibit is attached to this package showing the proposed changes from CD-4 and CD-5 zoning to CD-3 zoning.

We request that the preliminary plan be placed on Planning and Zoning Commission for review and approval ahead of the zoning change in order to allow the project to continue to progress, and appreciate your response to our request at your earliest convenience.

I have attached email correspondence regarding the vesting of the project from the City of San Marcos legal counsel which indicates no impacts to the Settlement Agreement from this proposed change.

If you have any questions, please do not hesitate to call.

Sincerely,
