Executive Summary

Background

The City has been awarded approximately \$34 million in Community Development Block Grant Disaster Recovery (CDBG-DR) grants by the U.S. Housing and Urban Development Department (HUD) as a result of the significant flooding events of May and October 2015. This funding is subject to federal compliance requirements found in 2 CFR §200 *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* and 24 CFR §570 *Community Development Block Grants*. Based on the HUD Action Plan developed by the City, the funds were allocated for the development of infrastructure and housing projects. To oversee the spending and oversight of the grant funds received, the City has developed policies and procedures to administer the CDBG-DR program. As needed, contracted professionals are engaged to provide additional technical assistance. Additionally, the City developed CDBG-DR policies and procedures, established internal controls, and implemented systems to govern the use of the HUD funds received.

In accordance with requirements set forth by HUD, The City has engaged Deloitte & Touché LLP to conduct internal audits each year of program funds and activities to evaluate compliance with national objectives, the City's HUD CDBG-DR Action plan and related amendments, federal program regulations, and City policies and procedures related to the CDBG-DR funding. Additionally, the internal audits evaluate the design and operating effectiveness of internal controls over program activities and funds and provides recommendations for enhancement, when needed.

Our Scope & Objectives

The area of focus for this internal audit included procurement, contracts, and finance activities for the CDBG-DR program occurring in the City's third quarter of Fiscal Year 2024 from April 1, 2024, through June 30, 2024.

Each area was reviewed to evaluate the following:

- The design and operating effectiveness of internal controls of the Finance and Purchasing Departments
- Compliance with Federal program and administrative regulations governing the CDBG-DR program
- Compliance with City policies and procedures governing the CDBG-DR program
- Compliance with the City's HUD Action Plan for Disaster Recovery and related amendments

Procurement and Contracting:

The assessment procedures included evaluation of the contract front-end life cycle, from request for proposal (RFP) to the establishment of a contract. The procurement process was evaluated for the services listed below and included the procurements for which an RFP was issued under these grants between April 1, 2024, through June 30, 2024. Contracts resulting from the procurement process were also reviewed in addition to procurements and/or contracts not provided in previous quarters.

This document is intended solely for the internal use of the City of San Marcos and should not be used or relied upon by any other person or entity.

Expenditures:

The expenditure assessment procedures evaluated whether federal regulations and City policies and procedures were followed in the approval and payment of CDBG-DR related expenditures during the period of April 1, 2024, through June 30, 2024. The selected expenditures were also evaluated to determine whether they were reasonable, necessary, allowable, and properly evidenced by supporting documentation. A sample of expenditures was selected from program expenditures for the period and included infrastructure, housing, administration, and planning activities.

The testing methodology included an analysis of at least 30% of the transactions executed during the period and consisted of an evaluation of invoices, proof of payment, general ledger, the HUD Quarterly Performance Reports (QPR) and HUD Disaster Recovery Grants Reporting System (DRGR) reporting and compliance with applicable policies, procedures, and federal grant regulations.

Prior Audit Findings:

The prior audit findings assessment procedures utilize interviews and follow-up meetings with City staff to review the status of resolution or evidence of progress relating to any prior audit findings from prior quarterly internal audits, HUD monitoring visits, or other external audits with findings directly related to the CDBG-DR program. We also reviewed the City's progress on the corrective action plan from the previous Quarter's reports.

No audit findings were identified in the previous quarter's Internal Audit Review. As of this report, there is no existing finding(s) requiring follow up.
