# CONDITIONAL USE PERMIT / ALTERNATIVE COMPLIANCE (GENERAL) APPLICATION

Updated: March, 2023

## CONTACT INFORMATION

Applicant's Name	Shannon Mattingly	Property Owner	See attached owners list.
Company	Drenner Group	Company	See attached.
Applicant's Mailing Address	2705 Bee Caves Road, Ste. 100 Austin, TX 78746	Owner's Mailing Address	See attached.
Applicant's Phone #	830-643-9453	Owner's Phone #	See attached.
Applicant's Email	smattingly@drennergrouper.com	Owner's Email	See attached.

## PROPERTY INFORMATION

Subject Property Address: 409 North Street, 413 & 419 North Street, 421 Lindsey Street

Zoning District: MF-24, MF-18, MF-12, CD-5

Tax ID #: R R34773, R141054, R133230, R32207, R155306, R53147

Legal Description: Lot See attached. Block                      Subdivision                     

## DESCRIPTION OF REQUEST

Please use this space to describe the proposal. Attach additional pages as needed.

The applicant is requesting a CUP for student housing and is proposing a multifamily student housing project that would be adjacent to the University. Would be accessible to campus without increasing traffic and creating sprawl in to the adjacent neighborhoods. The project is already zoned for multi-family and a portion of the property is already zoned CD-5. The project would provide a benefit to the University by providing much needed housing for students and would blend seamlessly into the University. In addition, we would like to reduce the number of parking spaces. We have commissioned a parking study that will show the number of necessary spaces needed, We do not want to under park the project but also do not want to have a lot of excess parking spaces. We will propose an adequate number based on completed study.

## AUTHORIZATION

*I certify that the information on this application is complete and accurate. I understand the fees and the process for this application. I understand my responsibility, as the applicant, to be present at meetings regarding this request.*

Initial Filing Fee \$1,000\*

Technology Fee \$15

**TOTAL COST \$1,015**

Renewal/Amendment Filing Fee \$750\*

Technology Fee \$15

**TOTAL COST \$765**

*\*Nonprofit Organization fees are 50% of the adopted fee listed for Conditional Use Permits*

**Submittal of this digital Application shall constitute as acknowledgment and authorization to process this request.**

PLAT SHOWING SURVEY OF A 0.4735 ACRE TRACT OUT OF BLOCK 2 OF THE P. C. WOODS ADDITION TO THE CITY OF SAN MARCOS, A SUBDIVISION IN HAYS COUNTY, TEXAS, ACCORDING TO THE PLAT RECORDED IN VOLUME T, PAGE 80, OF THE DEED RECORDS OF HAYS COUNTY, TEXAS.

FOR: Marjan Management LLC and The Hays County Abstract Company

GF: 20002132

DATE: March 8, 2000

ADDRESS: 436 North Comanche Street, San Marcos, Texas.

The undersigned does hereby certify that this is a Category 1A, Condition 2 survey and was made on the ground under my supervision of the property legally described hereon and is essentially correct and there are no visible discrepancies, shortages of area, boundary line conflicts, encroachments, overlapping of improvements, easements or right-of-ways except as shown.

Ronald N. Hayes, Registered Professional Land Surveyor, No. 2596

According to Map Panel 0193 E of the February 18, 1998 insurance rate map for the County of Hays, Texas, the property described hereon is in the Zone "X" of the flood hazard area.

**FIELD NOTES FOR  
0.4735 ACRES OF LAND**

A tract of land containing 0.4735 acres out of Lots 1, 2 & 3, Block 2 of the P. C. Woods Addition to the City of San Marcos, a subdivision in Hays County, Texas as described in Volume T, Page 80, Hays County Deed Records, and being the same tract conveyed to W. C. Carson by Sunset Limited as recorded in Volume 252, Page 473, Hays County Deed Records, and being more particularly described by metes and bounds as follows:

**BEGINNING** at an iron pin with a Pro-Tech cap found for the northeast corner of the herein described tract, and also being the northeast corner of Lot 1, Block 2, of the P. C. Woods Addition, and located at the intersection of the southeast ROW of Lindsey Street and the southwest ROW of Comanche Street;

**THENCE** S 08° 00' 00" E, following the Comanche ROW, a distance of 83.36 feet to an iron pipe found for the southeast corner of this tract;

**THENCE** S 81° 28' 23" W, leaving the Comanche ROW, a distance of 246.48 feet to an iron pin found at the base of a concrete retaining wall for the southwest corner of this tract, and at 241.48 feet passing the east line of a 5' sewer easement of record in Volume 103, Page 384, Hays County Deed Records;

**THENCE** N 09° 00' 10" W, following the west line of the 5' sewer easement, a distance of 83.50 feet to an iron pipe found in concrete, located in the southeast ROW of Lindsey Street for the northwest corner of this tract and the northwest corner of Lot 3, Block 2, of the P. C. Woods Addition;

**THENCE** N 81° 30' 20" E, a distance of 247.94 feet to the **POINT OF BEGINNING**, containing 0.4735 acres.

This is to certify that this description of land represents an actual survey made by me on the ground under my supervision as shown on the accompanying plat and qualifies as a Category 1A, Condition 2 survey of the latest standards and specifications of the Texas Surveyors Association.

Re: Updated PSA 23-02, ZC 23-19, CUP 23-22, AC 23-09– Preferred Scenario Map Amendment, Rezoning, Conditional Use Permit and Alternative Compliance request applications for the approximately 2.823-acre property located at the southeast corner of North and Lindsey Streets in the City of San Marcos, Hays County, Texas (the “Property”)

Dear Ms. Hernandez:

As representatives of the owner of the Property, we respectfully submit the enclosed package that includes no updates to the Preferred Scenario Map Amendment Application or the Rezoning Application. There are, however, amendments to the Conditional Use Permit Application for purpose-built student housing with a reduction in parking to 0.75. The developer will also provide 20 additional covered garage public parking spaces at the developer’s expense, (\$25K/space \* 20 spaces = \$500,000) and will comply with the parking reduction fee identified in Division 2, Section 7.1.2.1,E,2 of the Land Development Code. The Alternative Compliance request has been amended to allow for up to 7 stories on the east side of North Street, however based on concerns from the neighbors, Planning Commission and City Council we have taken their suggestion and reduced the height on the west side to 5 stories, which will match what is allowed in CD-5D and is only 10-12 feet higher than what is currently allowed by right.

The purpose of these applications is to change the Preferred Scenario map for the Property from Existing Neighborhood to High Intensity per the currently adopted comprehensive plan or Neighborhood High per the proposed unadopted comprehensive plan. It is important to note that the proposed plan shows Neighborhood High on either side of our property and we would propose changing our property to be consistent with the surrounding properties in the new plan. The Property is intended to be redeveloped as a student housing project. The Property is currently zoned multi-family and is surrounded by the University, other multi-family and sorority houses. The Sanctuary Lofts and Vistas of San Marcos properties have been recently bought by Texas State University and will remove 1081 beds from non-University Housing availability. The Property is not adjacent to residential. Currently, a portion of the Property is

Documents Provided by Developer

zoned CD-5D. We are requesting that the remaining parcels identified be rezoned to CD-5D to have consistent zoning on all lots to accommodate a student housing project. It is important to note these properties are already entitled and can develop as multi-family projects by right.

We believe that this location is ideal to accommodate the increased student population, and the need for student housing adjacent to the University. By allowing more dense student housing at key locations, such as this, the city is helping solve many of the most commonly heard issues in the community such as: Avoiding “student sprawl” throughout the city and removing many cars and busses required for the daily commute to the University, therefore reducing traffic congestion and pollution. We are requesting a CUP for purpose-built student housing and a reduction in parking spaces as part of the CUP. We recognize that many students will bring a car to campus, therefore we are proposing a parking structure to accommodate the vehicles of the students. We commissioned an independent third-party parking study to determine the parking utilization rates at comparable student housing properties located within one mile of the site, and within walking distance to the University. Our survey covered 10 properties that contained a total of 4,302 beds in 1,730 units. At these 10 properties, there are 3,230 parking spaces available to students. The average number of spaces per bed is 0.70 and the average vacancy rate is 10%, however, the majority of the vacant spaces are at the two most “overparked” projects, Sanctuary Lofts and Vie Lofts. Based on the current occupancy rates, the current ratio of spaces leased per leased bed is 0.69. Our project is proposing a parking ratio of 0.75, plus 20 public parking spaces, which has been determined to be more than we need to accommodate the project as a whole. The City’s recently adopted city-wide booting ordinance will also help to discourage students from parking within the neighborhoods, and the new proposed transit routes will help to decrease traffic by allowing students an alternative to driving to get to areas outside of downtown. The adjacency to the University is an ideal location for this product type allowing students to walk across the street and be on campus. The project will accommodate 20 covered public parking spaces and additional indoor secured bike parking. In addition, the developer will provide bikes that can be checked out at no charge at any time to get around campus, thereby further reducing traffic concerns in the area. The Developer will also have a bike maintenance and repair shop on site.

We are also requesting an alternative compliance to increase the height of the project from 5 to 7 stories, only on the east side of North Street. This will allow a nice reduction in density from 7 stories on the East side of North Street to 5 stories for the building fronting directly on North Street to the west. The reduction in height will continue to the west to existing 3 story apartment project, and then on to 2 story single family homes.

This project is outside of the downtown area immediately adjacent to the University. We have provided a 3D rendering to show the height of the building as it relates to surrounding properties. In order to serve the needs of the University’s student population and given the very limited number of sites that exist across from the University and not adjacent to single family, an increase in height is necessary to achieve the density to make the project beneficial for all. We have met with the Fire Chief and Fire Marshall and incorporated all of their recommendations to improve fire access to the site. We will be removing two older complexes as part of this project development, which were not required at the time of construction to meet the same current fire standards that exist today and are not currently sprinkled. Our proposal will include the first two stories be built with concrete and will then transition to wood construction.

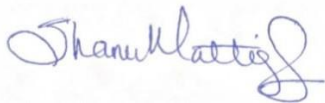

This project is ideal, due to its proximity to the University as well as stores and services within the downtown area that are walkable. It will include an improved pedestrian experience with a well-connected network of streets to accommodate the increased pedestrian traffic, while reducing the number of cars on the road. Students will be able to attend class, get to work, shop or access other commonly used student services, all without accessing their cars.

After going through the first round of public input the developer has addressed the comments from the neighborhood meeting and has also addressed the criteria for requesting alternative compliance. These comments are attached on the following tables, as well as some additional renderings and an updated property summary.

Please let me know if you or your team members require additional information or have any questions. Thank you for your time and attention to this project.

Very truly yours,

A handwritten signature in blue ink, reading "Shannon Mattingly". The signature is fluid and cursive, with the first name "Shannon" and last name "Mattingly" clearly distinguishable.

Shannon Mattingly

Issue Identified	Project Response
Safety of student housing (structure)	Less safe, non-sprinkled units will be replaced with new, sprinkled units that meet current Building, Fire, Electrical, and Plumbing Codes. Met with the Fire Chief and Fire Marshall to discuss improved access to the site based on their recommendations.
Rent by the bed student housing contracts.	Individual housing contracts allow roommate matching. Students will only be placed with other students of the same gender. Lighting and access/egress will be designed to current Code standards and provide a safer environment than exists today. Rent by the bed protects students by

making them responsible for only their payments and damages. They are not responsible as they would be in traditional apartments, for roommates moving out. Places risk on the developer. If a certain roommate leaves before the lease is over, or causes damage to their room, the other(s) do not become responsible for that student's payments, the loss is on the developer for the damage and loss of rent if they cannot release the bedroom.

#### Overbuilt student housing

Data shows there is a current (and rising) demand for student housing, even with the proposed Texas State University project. In an independent study done by Capital Market Research, it found that the current

	<p>occupancy rates are at 97% in student housing projects city-wide, and showing a current need for over 3,000 student housing beds. As of this week it has been brought to our attention that the University has purchased Sanctuary Lofts and the Vistas properties.</p>
Parking	<p>An independent parking study, as suggested by the city was conducted in 2023 and clearly identifies 0.7 as the appropriate ratio of parking spaces/beds. We are proposing to park our development at .75. An additional 20 spaces will be available for public parking and to help assist with commuter parking during school hours by allowing them off street parking. At over</p>

	\$25,000/parking space this will result in over a \$500,000 additional expense to the developer.
Height	While originally proposed to be all 7 stories, western 3 parcel heights have been reduced to 5 stories, as suggested.
Flooding/Drainage	Per the city planning and engineering departments this will all be addressed and enforced by the city code during the site development permitting process. It is important to note that the parking garage facility will utilize the current slope of the property but will not require further excavation.

## Historic Structures

We are currently in negotiations to have all 3 homes moved, if for some reason any or all of these falls through, we will immediately pursue moving the homes under the historic preservation guidelines.

## Encroachment into Neighborhood

The height of the western 3 parcels has been reduced to 5 stories. Requested Preferred Scenario Amendment and Zoning Request are consistent with gradually decreasing density from the downtown area as noted above. The transition would go from 7 to 5 to 3. Noting that the current multifamily zoning allows for 4 stories by right and the current CD-5D allows for 5 by right.

## COMMUNITY IMPACT

AUSTIN / SAN MARCOS - BUDA - KYLE / EDUCATION

### Texas State University purchases downtown apartments for \$151 million

By Sierra Martin | 1:44 PM Feb 12, 2024 CST  
Updated 1:44 PM Feb 12, 2024 CST

Texas State University has purchased two apartment buildings in downtown San Marcos to house an additional 1,086 students.

The Vista and Sanctuary Lofts were acquired by TXST in December, and the university took over management of the properties in January. The \$151 million purchase of the two properties was cheaper per-square-foot than building new dormitories, according to Bill Mattera, executive director of housing and residential life at TXST.

"The goal is just to offer more affordable housing for students and really lower the rates of these properties," Mattera said.

#### The big picture

He said that the growth of the freshman class over the past few years has caused a shortage in campus housing.

"Rents have increased by 40% in the San Marcos market, [TXST] has increased by 11%," Mattera said. "And so it's an opportunity to set up some affordable housing close to campus, but of the apartment variety."

About 90% of the property is already occupied by TXST students, but any occupant of **The Vistas** or **Sanctuary Lofts** that is not currently a student will be able to stay until the end of their lease but not have the ability to renew.

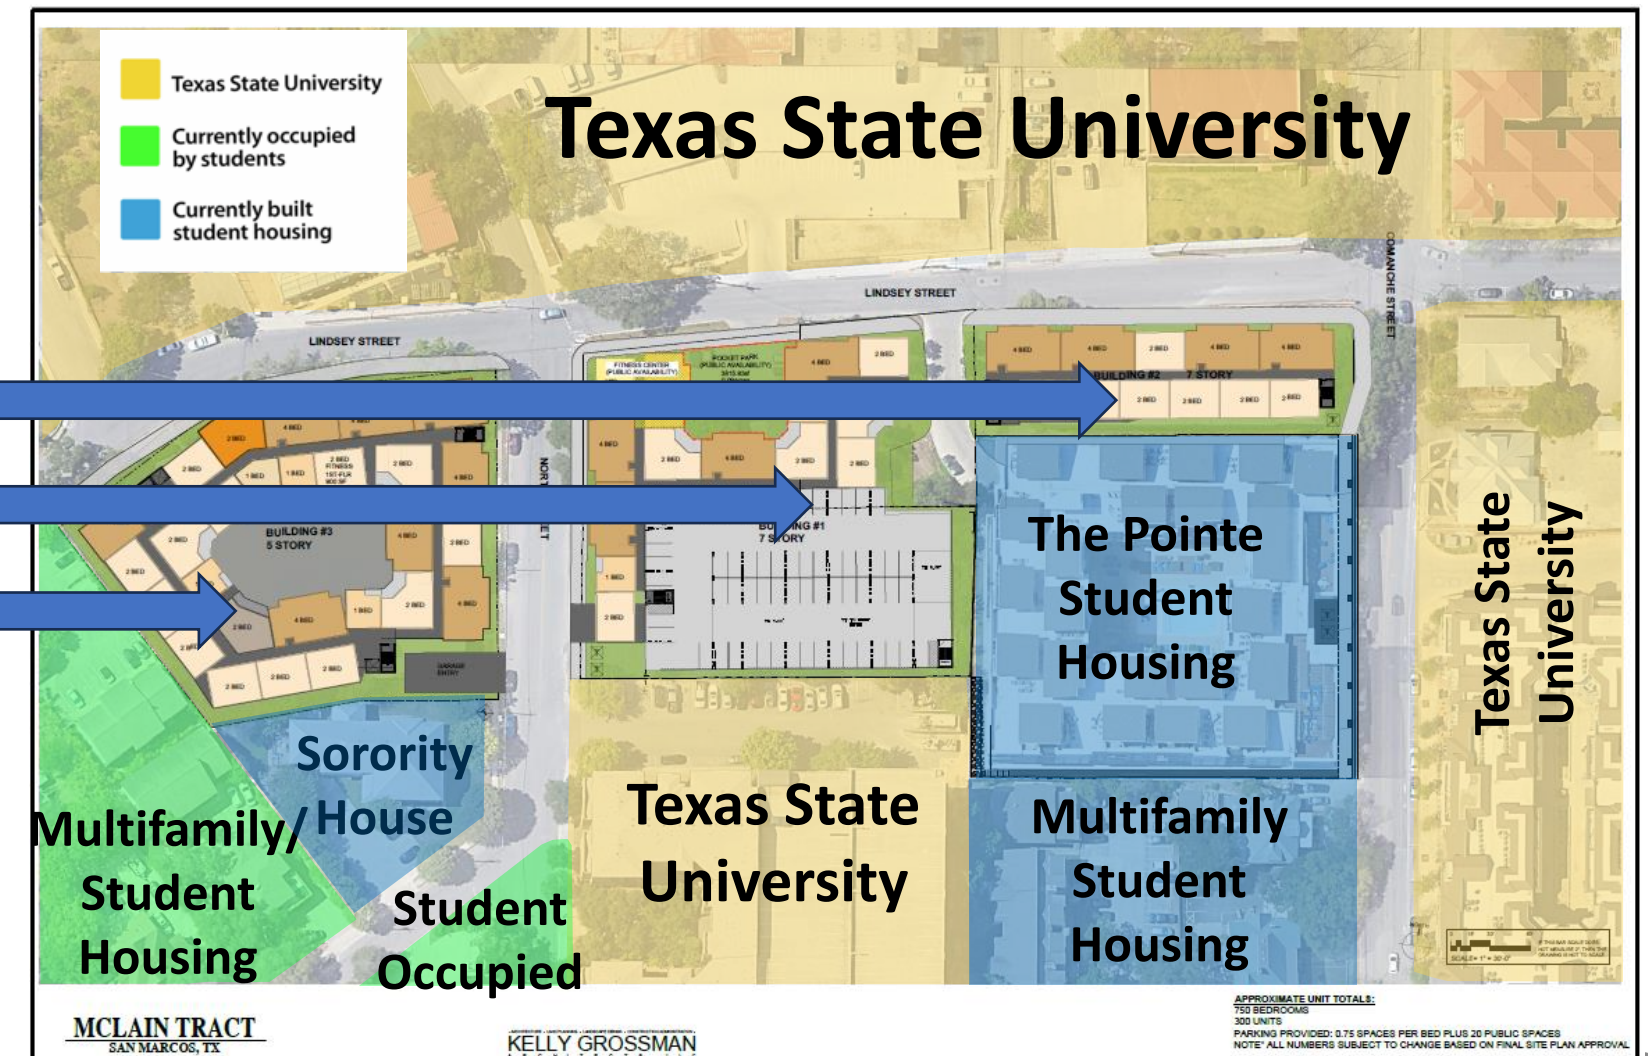

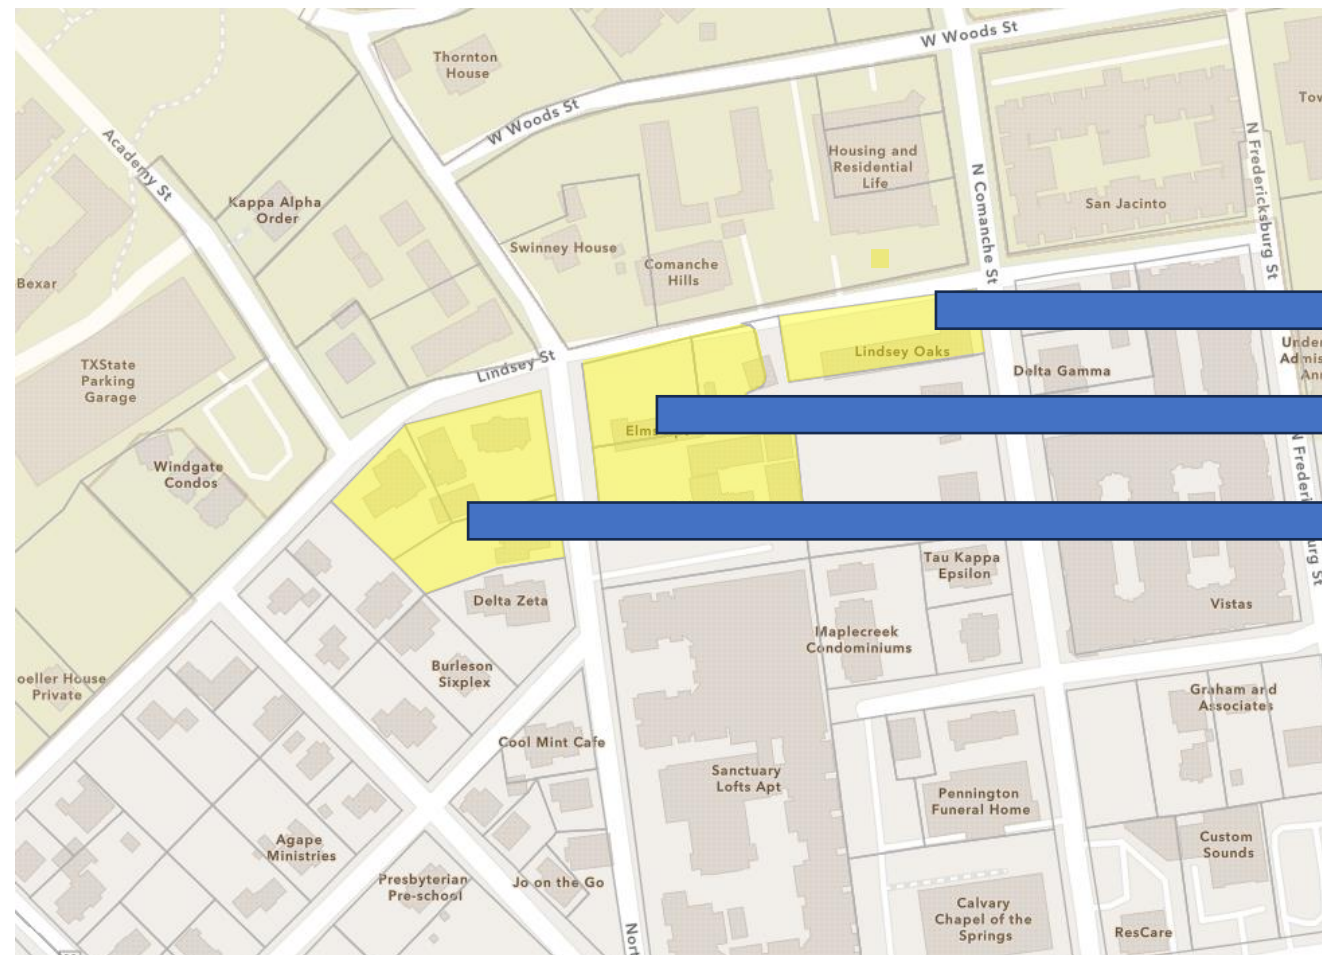

# Request

## Conditional Use Permit:

- CUP 23-22
- 6 parcels
- For Student Housing & Reduction in Parking Ratio to 0.75 spaces/bed (plus payment of \$7500/space difference per Code)
- Tract Size: 2.59 acres

## Case Summary

- **Staff Recommendation: Neutral/Approval with Conditions**
- Application is submitted in conjunction with:
  - PSA 23-02
  - ZC 23-19
  - AC 23-09

# Public Outreach and Participation

- Public Outreach Highlights
  - Neighborhood Meetings were held on September 28, 2023 and January 31, 2024.
  - Planning Commission hearing will be held on February 27, 2024
  - Canvassing students on campus and non-students off campus in the downtown area

Issue Identified	Project Response
Safety of student housing (structure)	Less safe, non-sprinkled units will be replaced with new, sprinkled units that meet current Building, Fire, Electrical, and Plumbing Codes.
Safety of student housing (rent by bed)	Individual housing contracts allow roommate matching. Students will only be placed with other students. Lighting and access/egress will be designed to current Code standards and provide a safer environment than exists today
Overbuilt student housing	Data shows there is a current (and rising) demand for student housing, even with proposed Texas State University project. University is currently purchasing existing student housing projects to support the need.
Parking	Parking study conducted in 2023 clearly identifies 0.7 as the appropriate ratio of parking spaces/beds. This project will park at .75 and will pay the mandated parking fee prescribed by Code. An additional 20 spaces will be available for public parking.
Height	While originally proposed to be all 7 stories, western 3 parcel heights have been reduced to 5 stories.
Flooding/Drainage	Impervious cover of eastern 3 parcels is almost 100%. Per Engineering Department, impervious cover on eastern 3 parcels will be addressed as part of Site Development Permit.
Historic Structures	Historic structures will not be demolished, they will be relocated.
Encroachment into Neighborhood	The height of the western 3 parcels has been reduced to 5 stories. Requested Preferred Scenario Amendment and Zoning Request are consistent with gradually decreasing density from downtown area.

Petitions & Letters of Support (1200 Signatures in Support)

427 Lindsey Street Partnership, Ltd  
1407 Brown Street, San Marcos, Texas 78666

Dear Members of City Council and/or Planning and Zoning Commission

I represent the owner of 427 & 431 Lindsey Street and 410 & 412 Burleson Street, San Marcos, TX 78666.

These properties connect from Lindsey Street on the north all the way to Burleson Street on the south and are directly adjoined to 413 & 421 Lindsey Street and 415 & 409 North Street making my property directly contiguous to the west of the new student housing project that Kenyon Companies is proposing on the corner of North Street and Lindsey Street.

The four properties owned by 427 Lindsey Street Partnership are multifamily/student housing and have been rented almost exclusively to students for many years.

I have been in contact with Kenyon Companies, and I am in support of the four (4) applications being submitted for these properties to enable them to be used as student housing. This includes the Preferred Scenario Amendment, the Zoning change to CD-5D, the Conditional Use for Student Housing, and the Alternative Compliance for an increase in height to 7 stories.

With such proximity to Campus, minimal site constraints, and a need for student housing near Campus, a project like this will benefit both the University and the City of San Marcos by:

- Enabling students to live closer to campus, which will remove traffic from other housing farther off Campus;
- Reducing the sprawl effect that can come with increased enrollment at Texas State
- Reducing vehicular traffic congestion, enabling them to access Campus and other routine services by bicycle or walking.

Thank you for considering this request.

Sincerely,

[Signature]

Allen E. Wise  
President/Manager  
Date: 10/20/23

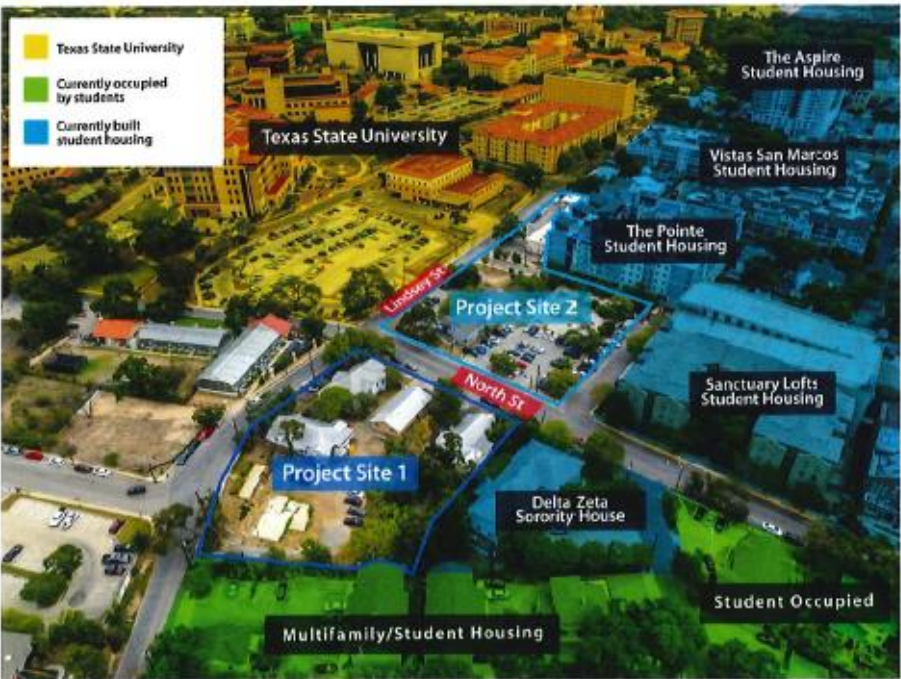

PETITION OF SUPPORT

Preferred Scenario Amendment: PSA 23-02: From "Existing Neighborhood" to "High Density-Downtown" for Site 1  
Rezoning Request: ZC 23-19: From "Multifamily MF-12/MF'18" to "Character District 5-D"  
Conditional Use Permit: CUP 23-22: For Student Housing & Reduction in Parking to 0.75  
Alternative Compliance Request: AC 23-09: Increase the permitted height from 5 to 7 stories

**Project Description:** The purpose of these applications is to change the Preferred Scenario map for both Sites from Existing Neighborhood to High Intensity-Downtown per the currently adopted Comprehensive Plan. **The Property is intended to be redeveloped with a student housing project with up to 917 beds.** The Property is currently zoned multi-family and is surrounded by the University, other multi-family and sorority houses. **The Property is not adjacent to residential.**

**We believe that this location is ideal to accommodate the increased student population, and the need for student housing adjacent to the University.** We recognize that most students will bring a car to campus, therefore we are proposing a parking structure to accommodate the vehicles of the students. Our project is proposing a parking ratio of 0.75, which has been determined to be more than we need to accommodate the project as a whole. **The adjacency to the University is an ideal location for this product type allowing students to walk across the street and be on campus.**

We are also requesting an alternative compliance to **increase the height of the project from 5 to 7 stories. This project is outside of the downtown area immediately adjacent to the University.** We have provided a 3D rendering to show the height of the building as it related to surrounding properties. **In order to serve the needs of the University student population given the limited number of sites that exist that are across from the University and not adjacent to single family, an increase in height is necessary to get the density to make the project beneficial for all.**

# Conditional Use Permit – Staff Conditions

1. The development shall register with the City of San Marcos Long Term Rental Registration program per Chapter 34, Article 7, Division 3 of the City's Code.
  - **Applicant Agrees.**
2. The existing High and Medium Priority structures identified in the Historic Research Survey shall not be demolished and shall be integrated into the development or relocated.
  - **Applicant Agrees. We are currently working on a plan for relocation.**
3. The Purpose-Built Student Housing shall comply with all other development code regulations. Back up materials are provided for informational purposes only.
  - **Applicant Agrees.**
4. The project shall not charge tenants a separate fee to utilize the parking garage.
  - **The applicant would prefer to allow for a separate fee so that a resident that is not bringing a car does not have to pay for parking that they will not use. Having it separate allows for a person without a car to not have to reserve and pay for parking they won't use especially considering the proximity to the University.**
5. The lease shall be made publicly available on the property's website and shall contain the following language: *"In the event the Leased Premises are unavailable for occupancy on or before the commencement date of this Lease, Landlord shall offer Tenant the choice of: 1) accepting temporary safe, decent, and sanitary housing, provided by Landlord, at an alternate location within the City of San Marcos, or within a seven mile radius of the Leased Premises, with Tenant remaining bound by the terms of the Lease; or 2) terminating the Lease with no financial penalty and with full reimbursement to Tenant of all deposits and pre-paid items within 10 days."*
  - **Applicant Agrees.**
6. Where parking fee in lieu is allowed under Section 7.1.2.1.E.2 of the Code, the parking ratio for the project shall be at least 0.85 spaces per bedroom, in addition to any public parking requirements proposed under AC-23-09 (if approved).
  - **The applicant is requesting a parking ratio of .75 spaces per bedroom with the balance being paid for at \$7500 per space. We believe this is consistent with the parking study that was conducted and will meet the intent of the Code.**
7. This CUP shall expire within 3 years unless an application for a permit is submitted to the City.
  - **Applicant Agrees.**
8. The development shall offer both "rent by the bedroom" leases and conventional leases where the apartments may be rented in their entirety.
  - **Applicant Agrees.**
9. The development shall be a minimum of a silver in the LEED green building program. Evidence of certification shall be required prior to the issuance of a Certificate of Occupancy.
  - **Applicant Agrees.**
10. Current tenants of the existing residential structures shall be given a minimum of six (6) months' notice to find other accommodations.
  - **Applicant Agrees**

# Conditional Use Permit – Student Housing

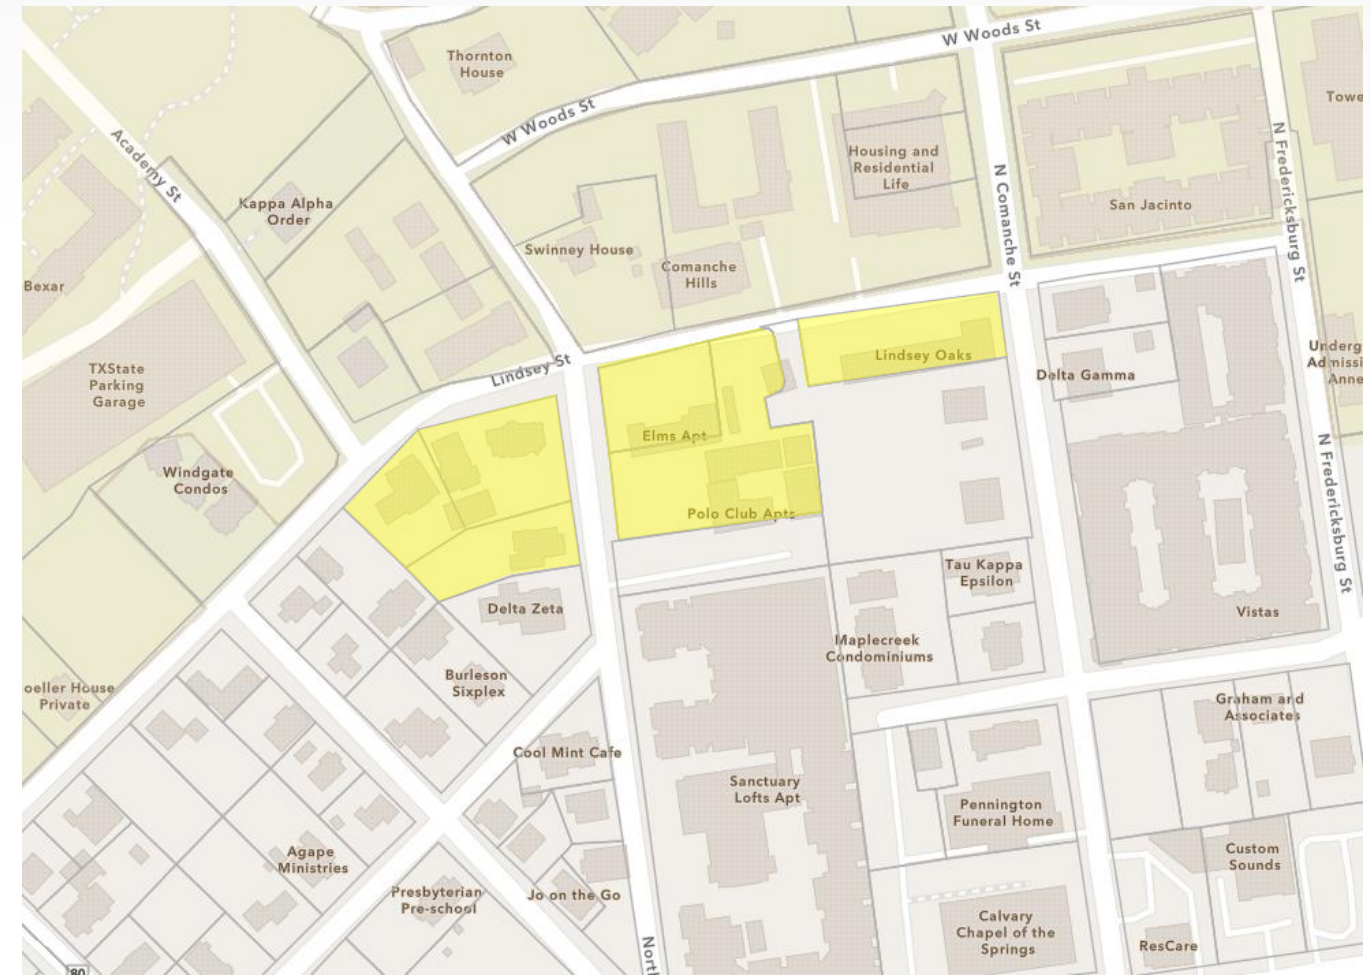

## Project will Offer both Conventional and Student Housing Options

### 1. Conventional Apartment Lease

- Lessees are wholly responsible for monthly rent

### 2. Off-Campus Individual Housing Contract Student Housing

- The predominant Student Housing model in the United States
  - Limits student risk
  - Places all risk on developer
- In this model, a student renter is protected if:
  - A co-habitant is late or does not pay their lease
  - A co-habitant damages the portion of the apartment they have leased
- Students are only required to ensure their installment payments get paid monthly
  - It will not matter if your roommates pays the rent on time or does not pay the rent at all.
- Families are permitted and welcome
- Allows for roommate matching
  - Non-students will not be placed with students
  - Gender mixing will be prohibited except where specifically requested
- Nationally, only 20% of on-campus student housing is equipped with full kitchens
  - Especially important as Universities struggle with providing meal plans that satisfy the broad range of dietary needs of their student population.
- Provides an asset to the University to academically, socially, and physically advance the learning environment while minimizing financial exposure.
  - Proven by recent University purchase of adjacent private student-built housing projects.

# Conditional Use Permit – Student Housing

- Use: Student Housing Demand

- Texas State University data shows freshman enrollment has increased 30% over the last 5 years.
- Community Impact (2023): “The freshman class represents a record-setting enrollment for the 3<sup>rd</sup> consecutive year.”
- Community Impact (2023): Current enrollment at Texas State University is at the highest in the past five (5) years and the 2<sup>nd</sup>-highest in university history.
- KTSW 89.9 (2022): “Texas State’s record-setting freshman enrollment could be cause of housing shortage.”
- Texas Higher Education Coordinating Board Enrollment Forecast for 2021-2035: Projects that enrollment at Texas State University will increase by roughly 18% by 2035.

- Use: Student Housing Supply

- 2021 U.S. Census Data shows 1,013 vacant rental units within San Marcos area, but this doesn't depict where these units are.
- November 2023 survey of 42 student housing projects in San Marcos: 21,264 total beds at 96.91% occupancy.
- July 2023 survey of ten (10) apartment communities with 1-mile of Property had vacancy rate of 1.3%.
- While there may be beds available city-wide, it is reasonable for the Commission to conclude that the supply of student housing within close proximity to the University is lacking.
- This is borne out by Texas State purchase of surrounding complexes adjacent to the University and abutting the proposed Project.

# Conditional Use Permit – Student Housing

From TAG:

**RBB Statistics in San Marcos, Texas**

San Marcos is already overbuilt by roughly 6,308-12,309 beds of Rent By the Bed (RBB) student-oriented housing.

38,376 students are currently enrolled (2023)

22,685 students physically do not live in San Marcos and do not need RBBs:

- 6,853 students in residence halls,
- 1,456 in Round Rock,
- 10,814 commuters,
- 3,562 online only students,
- Unknown number of students living in traditional housing

15,691 is the maximum number of “student housing” beds San Marcos needs to be able to house every Sophomore, Junior, Senior, PhD, Masters, Post Grad student, married, graduate, veteran, and people living in traditional/ joint lease housing.

21,999-ish RBB beds are available now. At least 28,000ish beds are available with double occupancy.

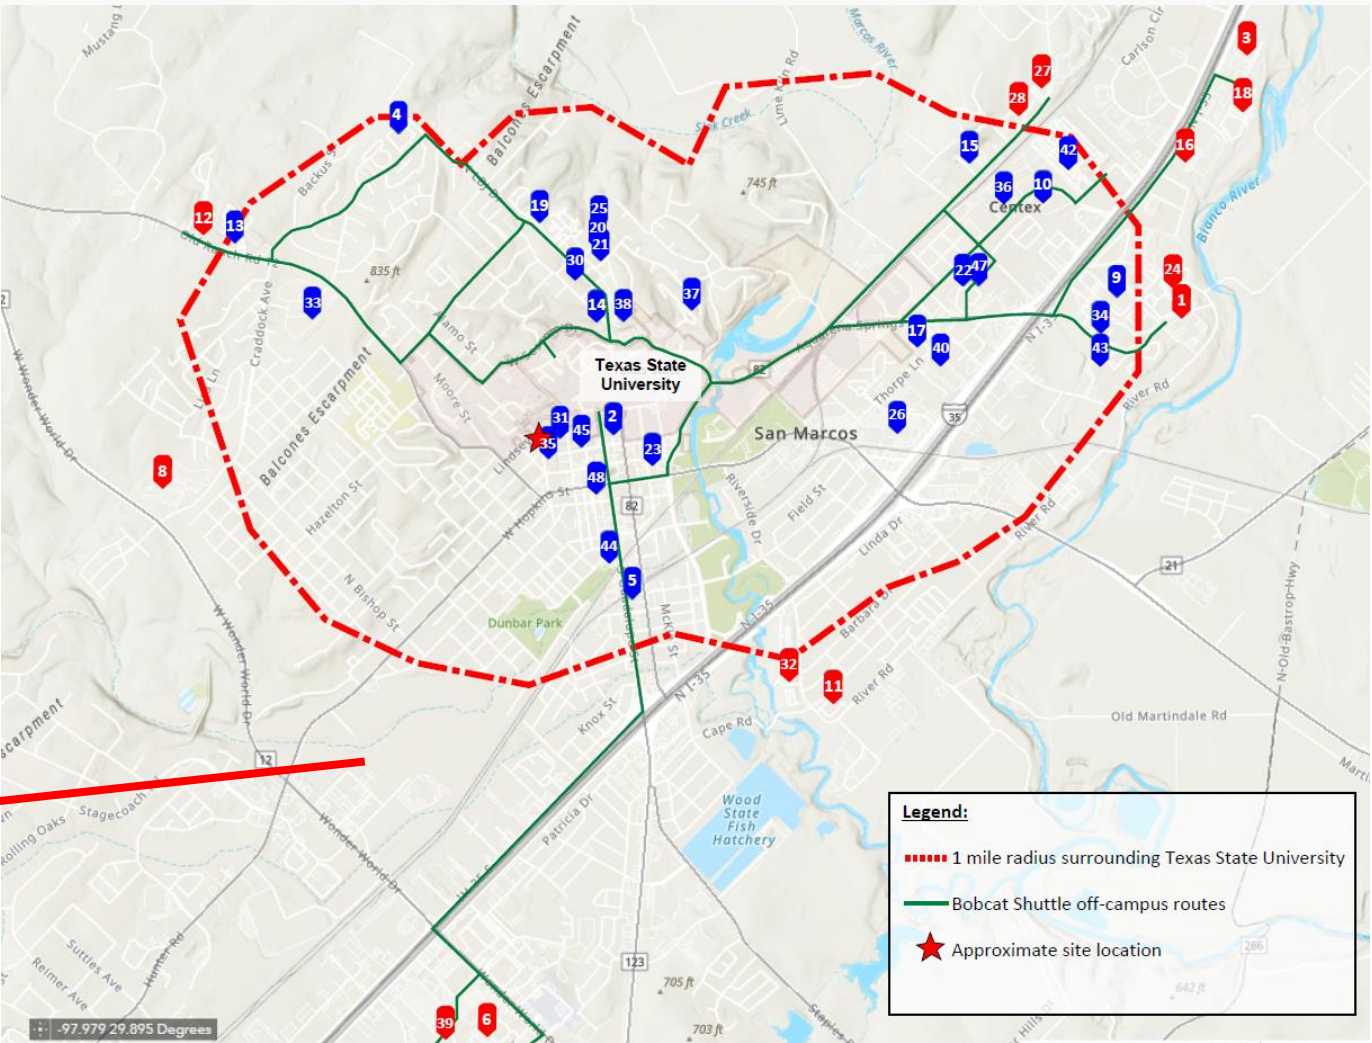

According to TSU Date, capacity is 6,753 and 7,174 students are living in these residence halls

Commuters and On-Line students cannot be assumed to not want to live on/near campus

With commuters and on-line students, this number rises to 30,067

More than 36% of these beds are > 1 mile from campus  
Only 53% of these beds are within 500’ of Bobcat Bus line

- There is a market demand – see petition numbers.
- The University has recently purchased the existing Sanctuary Lofts and The Vistas Student Housing Project totaling 1,048 beds, which they will be using for freshman housing.
- Without additional student housing near campus, students will be forced to live throughout San Marcos causing student sprawl and increased traffic throughout the city.

Student Housing Occupancy Information (within a 10 mile radius)					
Map No.	Project	YOC	Total Units	Total Number of Beds	Beds Leased
Built 2010 +					
1	Aspire San Marcos	2020	225	755	755
2	Cheatham Street Flats	2020	143	234	234

Documents Provided by Developer

# Conditional Use Permit – Parking

- Applicant is proposing a parking ratio = 0.75 spaces/bed
- 2023 Capital Market Research Parking Utilization Study
  - Appropriate ratio of parking spaces/bed for a student housing project in San Marcos = 0.7 spaces/bed.
  - Especially true when Project is literally across the street from campus.
- Thus, the project provides 20 paid, covered parking spaces available for public use.
- Applicant will meet the provisions in the Land Development Code Chapter 7, Article 1, Division 4 by paying fee-in-lieu for the balance of the parking spaces not provided.
- Applicant is proposing to provide a bike storage room to include a maintenance shop and bikes available to be checked out by residents.

# Tax Impacts of Project

Tax Value Lost to Sale of Sanctuary Lofts/Vistas to Texas State University (2023)

Year	Taxing Unit	Tax Rate	Assessed Value		Lost Tax Value
			Sanctuary Lofts	Vistas	
2023	City of San Marcos	0.603000%	\$ 33,319,599	\$ 45,377,478	\$ 474,543
2023	Hays County	0.287500%	\$ 33,319,599	\$ 45,377,478	\$ 226,254
2023	San Marcos CISD	0.991500%	\$ 33,319,599	\$ 45,377,478	\$ 780,282
2023	Special Road District	0.020000%	\$ 33,319,599	\$ 45,377,478	\$ 15,739
2023					\$ 1,496,818

Tax Value Gained by McLain Project

Year	Taxing Unit	Tax Rate	Assessed Value						Lost Tax Value	Estimated Assessed Value - McLain	Gained Tax Value	Net Tax Value
			421 Lindsey	413/419 North	435 Comanche	410 North	420 North	409 North				
2023	City of San Marcos	0.603000%	\$ 248,140	\$ 968,915	\$ 1,431,612	\$ 244,720	\$ 665,000	\$ 579,110	\$ 24,949	\$ 65,262,107	\$ 393,531	\$ 368,581
2023	Hays County	0.287500%	\$ 248,140	\$ 968,915	\$ 1,431,612	\$ 244,720	\$ 665,000	\$ 579,110	\$ 11,895	\$ 65,262,107	\$ 187,629	\$ 175,733
2023	San Marcos CISD	0.991500%	\$ 248,140	\$ 968,915	\$ 1,431,612	\$ 244,720	\$ 665,000	\$ 579,110	\$ 41,023	\$ 65,262,107	\$ 647,074	\$ 606,051
2023	Special Road District	0.020000%	\$ 248,140	\$ 968,915	\$ 1,431,612	\$ 244,720	\$ 665,000	\$ 579,110	\$ 827	\$ 65,262,107	\$ 13,052	\$ 12,225
2023									\$ 78,695		\$ 1,241,285	\$ 1,162,590

The Estimated Assessed Value for McLain is a general estimate based on current building plans and market conditions and not a projection for the Tax Assessor's office.

- Project nets an approximate \$368,500 increase in City tax revenues over today's situation.
- This recovers 77% of tax revenues lost by sale of Sanctuary Lofts and The Vistas to Texas State University.
- All taxing units achieve 77% tax revenue recovery with project.

# Changes Since Initial Application

---

The Applicant has undertaken the following in response to meetings with Staff and concerned citizens since 2021:

- **Studies:** Applicant has commissioned studies to make data-driven decisions on proposed Conditional Use Permit:
  - *Student Housing Parking Utilization Study*, Capitol Market Research (July 2023)
  - *Apartment Community Survey*, Capitol Market Research (September 2023)
  - *San Marcos Student Housing Market Research and Demand Analysis*, Capitol Market Research (November 2023)
  - *McLain Traffic Analysis Letter*, Carlson, Brigrance & Doering, Inc. (February 2024)

The Applicant has incorporated the following changes and modifications in response to meetings with Staff and concerned citizens since 2021:

- **Height:** Applicant has reduced the height on the western parcels from 7 stories to 5 stories
- **Tenant Protections:** Applicant has addressed tenant protection issues by:
  - *Offering both “rent by the bedroom” leases and conventional apartment leases where the apartments may be rented in their entirety*
  - *Modifying lease documents to increase tenant protections*
  - *Committing to ensuring students are housed with students*
  - *Committing to providing a minimum of six (6) months’ notice to existing renters find other accommodations*
  - *Disaggregating parking space rental from bedroom rental.*
- **Parking:** Applicant has increased parking ratio from 0.7 to 0.75 spaces/room
- **Parking:** Applicant has added 20 public parking spaces
- **Open Space:** Applicant has added public open space to project, including plaza/public seating
- **Commercial Space:** Applicant has added a publicly accessible gym to the ground floor

# Summary – Conditional Use Permit

---

1. To mitigate and minimize Student Sprawl, there is NO BETTER place for this Conditional Use than ACROSS THE STREET FROM CAMPUS.
2. Staff is neutral on this Conditional Use Permit request and has proposed conditions, the majority of which the Applicant agrees with.
3. Project offering both conventional apartment leases and “rent by the bedroom” leases.
4. There is a documented need for Student Housing (Texas State & Texas Higher Education Coordinating Board data).
5. Texas State just purchased The Vistas and Sanctuary Lofts to address this need, but additional units needed.
6. These 2 properties are already between 80-95% leased for NEXT SCHOOL YEAR (normal lease rates at this tie of year are approximately 20-30% leased).
7. Over 1200 students and non-students have signed a petition in support of the Conditional Use.
8. Lease documents have been modified to increase tenant protections.
9. Applicant commits to ensuring students are housed with students.
10. Applicant commits to providing a minimum of six (6) months’ notice to existing renters find other accommodations.
11. Parking ratio exceeds that found by Study to be applicable to Project.
12. Public Parking, Open Space, and Commercial Business space included in Project.
13. Applicant has worked to address tenant protections in several different ways.
14. The City will replace approximately 77% of lost tax revenue from that purchase through this Conditional Use Permit.

## PETITION OF SUPPORT

**Preferred Scenario Amendment:** PSA 23-02: From "Existing Neighborhood" to "High Density-Downtown" for Site 1  
**Rezoning Request:** ZC 23-19: From "Multifamily MF-12/MF'18" to "Character District 5-D"  
**Conditional Use Permit:** CUP 23-22: For Student Housing & Reduction in Parking to 0.75  
**Alternative Compliance Request:** AC 23-09: Increase the permitted height from 5 to 7 stories

**Project Description:** The purpose of these applications is to change the Preferred Scenario map for both Sites from Existing Neighborhood to High Intensity-Downtown per the currently adopted Comprehensive Plan. **The Property is intended to be redeveloped with a student housing project with up to 917 beds.** The Property is currently zoned multi-family and is surrounded by the University, other multi-family and sorority houses. **The Property is not adjacent to residential.**

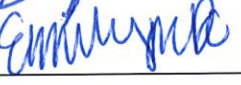

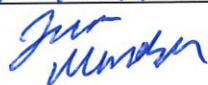

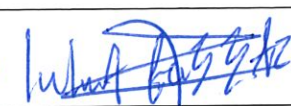

**We believe that this location is ideal to accommodate the increased student population, and the need for student housing adjacent to the University.** We recognize that most students will bring a car to campus, therefore we are proposing a parking structure to accommodate the vehicles of the students. Our project is proposing a parking ratio of 0.75, which has been determined to be more than we need to accommodate the project as a whole. **The adjacency to the University is an ideal location for this product type allowing students to walk across the street and be on campus.**

We are also requesting an alternative compliance to **increase the height of the project from 5 to 7 stories. This project is outside of the downtown area immediately adjacent to the University.** We have provided a 3D rendering to show the height of the building as it related to surrounding properties. **In order to serve the needs of the University student population given the limited number of sites that exist that are across from the University and not adjacent to single family, an increase in height is necessary to get the density to make the project beneficial for all.**

Re: PSA 23-02, ZC 23-19, CUP 23-22, AC 23-09 – Preferred Scenario Map Amendment, Rezoning, Conditional Use Permit and Alternative Compliance request applications for the approximately 2.557-acre property located at the corner of North and Lindsey Street in the City of San Marcos, Hays County, Texas (the “Property”)

Dear Mayor and City Council:

We represent The McLain Student and Conventional Housing project and would like to provide some additional information for your consideration as you prepare and review for our upcoming Preferred Scenario Amendment and associated cases. As you are aware we have submitted a Preferred Scenario Map Amendment Application, a Rezoning Application, a Conditional Use Permit Application for purpose-built student housing (Modified to the east side only) and an Alternative Compliance request to allow up to 7 stories (modified to the east side only). The Property consists of 2.557 acres and is located adjacent to Texas State University (the “University”) at the corner of North Street and Lindsey Street in the City of San Marcos, Texas.

The purpose of these applications is to change the Preferred Scenario map for the Property from Existing Neighborhood to High Intensity per the currently adopted comprehensive plan or Mixed-Use Medium per the proposed unadopted comprehensive plan. Although, the new Comprehensive Plan has not been adopted yet, you can see below what is currently proposed would transition from mixed use medium (purple) to neighborhood medium (lighter yellow) and then back to neighborhood high (darker yellow) before going back down to neighborhood medium. We would like to propose that the map be modified to allow for this transition from mixed use to neighborhood high density and then down to neighborhood medium. These properties are identified below:

In addition, the Developer would like to address some of the concerns we have heard from the neighborhood and Planning Commission. We would like to offer the following restrictions on the west side of North Street properties that are associated with the PSA. The developer is proposing to put restrictive covenants on the property in order to give the City the assurances that the restrictions could be enforced. These restrictions would be adopted with the CD-5D zoning. These properties will no longer need a purpose-built student housing CUP or the alternative compliance based on the proposed modifications listed below:

- Restrict the property to a 4-story maximum in height. (CD-5D allows 5-story)
- Put only traditional multifamily on these lots.
  - Would NOT do rent by the bedroom leases.
  - Would ONLY do a conventional lease. (Leasing by the unit)
  - Design units for individuals and families.
  - Build only 1-, 2-, and 3-bedroom units. NO 4-bedroom units would be built. (PBSH CUP allows 4-bedroom)
  - Market to University staff and faculty as well as families and non-students.
  - Reduce the impervious cover from 100% to 80%.
  - Allow the use of all amenities for all residents.

All of the Property is **currently** zoned multi-family with an allowed height of 4 and 5 story and is surrounded by the University, other multi-family and sorority houses. The Property is not adjacent to residential. Currently, 0.626 acres of the Property is currently zoned CD-5D. We are requesting that the remaining 1.931 acres of property be rezoned to CD-5D to have consistent zoning on all lots to accommodate this project with restrictive covenants on the west side (Project Site 1 below). San Marcos has previously utilized restrictive covenants on numerous projects (Whisper, Balcones, etc) to alter development requirements. This practice is consistent with the published opinion of the Attorney General.

We believe that this location is ideal to accommodate the increased student population, and the need for student housing adjacent to the University but also recognize that there might be staff and faculty of the University that would benefit from a traditional multi-family project adjacent the University. Therefore, we are modifying our request to only seek a CUP for purpose-built student housing on the property located to the west of North Street (Project Site 2). The Planning Commission recommended in favor of the entire site but we believe that a transition to traditional multifamily to the west of North Street would prove beneficial. The adjacency to the

University is an ideal location for this product type allowing students, staff and faculty to walk across the street and be on campus.

We are also requesting an alternative compliance to increase the height of the project from 5 to 7 stories on the east side of North Street. We have provided a 3D rendering below to show the height of the building as it relates to surrounding properties. It's important to note that we removed the alternative compliance from the west side properties and are only seeking to go to 7 stories on the east side, where we are surrounded by other buildings that range from 6 to 14 stories, including a new University project that is 7 stories within 500 feet of our site.

The allowance for 7 stories on the east side of North Street is imperative to the financial viability of the project. This height will allow us to reduce the height on the west side parcels and develop a conventional multi-family site. Some other requirements provided for with the alternative compliance are as follows:

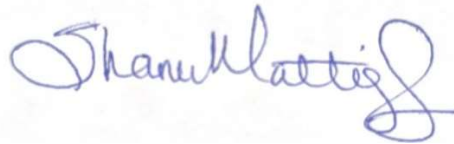

- The project will be LEED Silver certified.
- 20 additional public parking spaces will be provided in addition to the required parking to be met per the Land Development Code.
- An additional 5% open space will be provided above the normal parkland requirements, which will include a plaza/public seating.
- Will include a publicly accessible gym on the ground floor.
- Will include a bicycle maintenance and repair and extra bicycles available to be checked out by residents as needed.

This project is ideal, due to its location adjacent to campus, its proximity to shopping and services within the downtown area that are walkable. It will include an improved pedestrian experience with a well-connected network of streets to accommodate the increased walkability of students without the need to drive to class or to access their cars for work or to shop or access other services.

Staff have recommended approval of our project with certain conditions. The one condition that we would like to have modified is the request not to charge for parking. It is consistent with projects of this type to charge a fee for parking in order to recoup the overall cost of building the parking garage. We would like to have that condition removed as we want to make sure we are transparent in our request and don't want to penalize people who don't bring a car. Residents that do not bring a car will not have the cost of parking which would otherwise be incorporated into the lease.

Please let me know if you would like any additional information or have any questions. Thank you for your time and attention to this project.

Very truly yours,

A handwritten signature in blue ink, appearing to read "Shannon Mattingly", with a stylized, flowing script.
