RE: Installation of Underground Electric Distribution Facilities for the
Cottonwood Creek Phase 3, Unit 1 Subdivision Project.

Dear Ms. Jasso,

We have received your inquiry regarding electric service for the proposed **Cottonwood Creek Phase 3, Unit 1** subdivision project located in Hays County and have determined that is in the certificated service territory of Bluebonnet Electric Cooperative, Inc. and we are therefore willing to provide electric service. Bluebonnet's promise to provide service is contingent upon the applicant fulfilling all the requirements of our Tariff including our Line Extension Policy. We look forward to working with you to provide the electric service this project requires. We need the following items satisfied before we can proceed with our design and cost estimate:

1. A CAD (AutoCAD format) file for all construction activity on the entire project.
2. A 5' wide exclusive assignment (whose location is agreeable to us) for our facilities in a 10' wide Public Utility Easement or a 10' wide dedicated Bluebonnet Electric Cooperative easement. We request that you conduct a utility coordination meeting at which all utilities involved in your project attend and agree on their respective assignments.
3. Your proposed construction schedule for all phases of this project.
4. A Development Information Request Form for all facilities to be served in all phases of this project and/or a detailed electrical load analysis for all commercial facilities to be served in all phases of this project.

Please see the attached Bluebonnet Timeline Sheet for your project/job work progress and scheduling.

Bluebonnet Electric Cooperative shall at all times have complete ownership and control of any facilities we install and reserve the right to serve other customers from these facilities at any time.

Should you have any questions or need additional information, please give me a call at 888-622-2583, ext. 8527

Sincerely,

Rodney Gerik
