RE: Preliminary Cost Estimate for Installation of Electric Distribution Facilities for the **FM 1978 San Marcos WWTP Project**.

Dear Mr. Naiser,

Per your request, I have reviewed the information provided and developed a preliminary cost estimate. Based on the preliminary design dated **5/12/2026**, the preliminary cost estimate is **\$2,550,000.00**. Please note that this is only a preliminary cost estimate and not the actual cost. Bluebonnet will give an actual cost estimate once you have submitted all required project documents, agreed upon the final design, and the project is Site-Ready.

Please call me if you need additional information.

Sincerely,

Rodney Gerik
