TERMS & CONDITIONS

Action Target Inc. may be referred to as "Action Target" or "ATI" throughout this proposal.

PROPOSAL DATE 12/10/24

PROPOSAL VALIDITY 60 days

PAYMENT TERMS

1. Schedule of Values
2. ATI reserves the right to adjust installation costs based upon the actual site conditions encountered.
3. Unless explicitly itemized, price does not include bonds, fees, assessments, licenses, permits, mandatory wage requirements, other regulatory costs that may be applicable to the job site, or anything else not expressly identified in this proposal.
4. Price applies to range equipment and systems only. It does not include site preparation, construction, trusses/baffle supports, electrical, conduit, or any other work not directly contained in ATI's scope of work.

SHIPPING TERMS

1. FOB destination: prepaid.

DELIVERY & INSTALLATION TERMS

1. Manufacturing shall take no fewer than 16 weeks
2. Factory installation estimated TBD days.
3. Installation cost is based upon having forklift and scissor lift access. If forklift and scissor lift access is not available, the installation cost will increase.

**CUSTOMER
RESPONSIBILITIES**

1. Buyer to verify the ceiling structure within the range is capable of containing any errant type secondary bullet impacts.
 2. Permits, licenses, special insurance requirements, bonds (when applicable), regulatory costs, or any other special fees unknown at this time.
 3. Concrete work including slabs, footings, and walls, floor trenching and wall notching (if applicable).
 4. Structural work of any kind, including structural supports, canopies, etc.
 5. Supplying of electrical services, electrical outlets, conduit(s), junction boxes, disconnects, stub-outs and lighting of any kind.
 6. Power and disconnect switches to all equipment per local code and manufacturer's requirements on the equipment, VFDs for the electrical contractor to mount and wire (ATI will only supply low voltage wire connections).
 7. Cutting, coring, sealing and/or patching of any wall surfaces, roof surfaces, and or concrete (if applicable).
 8. Additional fees related to "customization" of product or work otherwise identified as "custom".
 9. Any other work, materials or equipment that is not expressly included in the ATI Work.
 10. Disposal of construction waste.
 11. Wash area and restroom facilities.
-

TOTAL CONTAINMENT TRAP™

SUPERIOR BULLET COLLECTION

The Total Containment Trap offers unparalleled efficiency and reliability for collecting bullets while providing a tactical close-range and cross-lane shooting environment. The patented design utilizes a number of features that not only capture lead fragments and dust, but also simplify the process of recycling lead.

Funnel Plates

Precisely engineered ballistic steel deflects bullets into the Vortex™ chamber with minimal splatter. Indoor and outdoor options are available.

Vortex Deceleration Chamber

Rounds pass through the mouth of the trap and into the Vortex chamber. The bullets decelerate as they spin along the inside wall of the chamber.

Bullet Collection System

Once decelerated, rounds fall into the Bullet Collection System for easy recycling.

Dust Collection Unit

Using negative pressure, the Dust Collection Unit draws lead dust from the trap and deposits it into a containment system for easy recycling.

Low Maintenance

The TCT is modular, which means it can be maintained and serviced with little to no downtime. The system also does not utilize water for cleanup or rubber for bullet containment.

ActionTarget.com/TCT

FEATURES

- Open Mouth Design
- Automated Bullet Collection
- Modular or Smooth Plate Options
- Various Configurations
- Integrated Dust Collection

BCS DELUXE 20

SIMPLE HIGH CAPACITY LEAD COLLECTION

Action Target's Deluxe 20 Bullet Collection System is the latest innovation in collecting bullets for recycling. The system attaches to the bottom of the Total Containment Trap™ deceleration chamber to collect bullets into 20-gallon drums. The drums can then simply unlatch from the chamber and roll out of place quickly and easily

Lower Cost

Simple design provides lower entry cost without compromising ease of use.

No Power Requirements

Does not require electricity or moving parts to operate, saving on utility and maintenance costs.

No Lifting

Easy to move drum dolly allows replacement without the need to manually lift barrels.

Easy to Replace & Recycle

Drums disconnect and roll out of place for recycling pickup quickly and easily.

Less Frequent Maintenance

Drums need to be replaced less frequently than other bullet collection systems.

LEARN MORE

ActionTarget.com/Products/BCS_Deluxe_20

FEATURES

- Easy View Sight Window
- Container Replacement Simplified
- Less Frequent Drum Replacement

DUST COLLECTION UNIT

SAFE LEAD DUST COLLECTION

Bullets emit a significant amount of lead dust. Adding the Dust Collection Unit to the Total Containment Trap™ removes this dust from the deceleration Chamber and collects it for easy recycling.

Use

Larger units are required to be mounted to a cement pad exterior to the range. Units can be installed inside or outside the shooting range.
