

The Growling Texas Beer Bar in San Marcos has been open for business since March 2016.

We are an all-Texas craft beer bar that also offers cider, mead and non-alcoholic alternatives.

Part of our business model is to act as a growler-fill station. Growlers are containers to-go, with the purpose of selling our draft offerings for off-premise consumption.

We do not sell liquor or any alcoholic beverage above 17% abv.

We have one pool table available for our customers.

We do not sell food.

Our operations have not changed or differed, this is an application to renew our CUP in order to continue uninterrupted business.

I thank you for your time and consideration.

**Sincerely,
Manuel Lopez-Castro
Managing Member**
