Dear Chief,

We have worked with BRW over the past 10 years in building three fire stations and three conceptual designs. Each time they have been timely on pre-established deadlines and been spot on dealing with pre-established target budgets.

As an organization, we think highly of the firm and enjoy working with them. If you have any future questions please contact me at 979-764-3781 or jmies@cstx.gov.

Sincerely,

Jon Mies
