Report to Council

IFB # 215-164 Blanco River-River Road Slope Stabilization Project

Recommended Contractor:

Westar Construction, Inc.

Total Cost Recommended for Award:

\$485,825.00

Purpose:

The purpose of the bid is to award a construction contract to removal and replace an existing headwall along a steep embankment of the Blanco River at River Road adjacent to the Bugg Lane intersection. The new headwall will consist of concrete walls and rip-rap embankment with energy dissipaters. Side stabilization will include installation of mechanically stabilized earthen walls and the pipes entering the Blanco River will contain a backflow prevention device that will prevent tides from backing up into the storm drain system. The scope of work also includes the removal and replacement of two existing reinforced concrete pipe alignments approximately 220 feet in length each.

Basis for Award:

Total Low Bid

Evaluation:

An invitation for bid was issued in accordance with purchasing procedures. Three (3) bids were received. The low bid was evaluated to assure they were responsive and responsible.

Recommendation:

Staff recommends awarding the contract to Westar Construction, Inc. as the lowest, most responsive, responsible bidder.

Purchasing Division:

Cheryl Pantermuehl, Purchasing Manager

Department Executive Director:

Laurie Moyer, Capital Improvements.
