

Blanco River-River Road Slope Stabilization Project

City Council Meeting June 2, 2015

Item XX: Consider approval of Resolution 2015-XXR approving a construction contract between the City and Westar Construction, Inc. for the provision of construction services in connection with the Blanco River-River Road Slope Stabilization Project in a total not to exceed amount of \$485,825.00; contingent upon the Contractors provision of sufficient insurance and bonds in accordance with the attached contract; authorizing the City Manager or his designee to execute this agreement on behalf of the City; and declaring an effective date.

BACKGROUND:

- This project is near the River Road and Bug Lane intersection and will address voids/leaks within an existing storm sewer system outfall along an escarpment of the Blanco River.
- Scope of work includes:
 - Reinstallation of approximately 400 LF of existing 48" diameter concrete piping
 - Removal and replacement of concrete headwall
 - Bank stabilization adjacent to new headwall
