Secondary Staff Feedback

- Awesome job with staff, parents, and kiddos!
- Both of our SRO's are approachable, calm, professional, caring and compassionate with the faculty and the students! They keep us safe and are always vigilant and ever ready but give a reassuring presence (sic).
- Our SRO is awesome, she always is there for the kids, but has a firm hand when she has to do her duties!
- He is very encouraging to students, and they appear to feel comfortable coming up to him and starting a conversation.
- He is a positive influence and a great role model
- She is fantastic. Assertive. Very fair.
- Team player, stern when needed, educated students on the law, was approachable at all times, many students looked up to the SRO like a family member. Always walked around and never hid in their office.
- All SRO's are very positive towards staff and students, their presents in the halls helps deeply, and give a feel of safety and assurance to students and staff.
- They are all amazing with ACL students!
- The students are very comfortable with Officer Stewart and report events to her frequently. I feel this helps change the public mindset about police due to her close relationship with the students.
- Officer Chris has been an asset to our campus, has a great rapport with our students, and will be missed next year.
- I have only spoken with them in passing, they are always courteous and professional
- Officer Marroquin is an AMAZING SRO. We will miss him so much next year! He is so approachable with students and staff and builds amazing relationships with students. He is open and honest with students, answers all their questions, and makes the school a safe space for everyone on campus.
- Our SRO's have been great this year. We are in constant communication. They assist us in many areas including proactive and reactive interactions with admin, students, and families.
- He does his job
- We are very grateful to have the assigned SROs to the high school campus. Please give the our respect and admiration with your survey.
