Zoning Request ZC-25-09

906 Chestnut Street

History

The +/- 0.77-acre site is located within the city limits and was part of the Park Addition plat, platted in 1907. The applicant is proposing a small multifamily apartment development. The site is located within the "North LBJ Drive and Sessom Drive Neighborhood Center in the Comprehensive Plan, which is described as "small, walkable, mixed-use areas that provide convenient access to goods, services, and dining for nearby residents. These areas are characterized by smaller commercial centers that are walkable and typically located near neighborhoods providing residents with convenient, safe, and equitable access to services." The applicant claims that applying for the CD-4 Zoning District, will enable better use of the property, as it has a required build-to zone, which allows structures to be built closer to the street than MU District.

Evaluation			Criteria for Approval (Sec.2.5.1.4)
Consistent	Inconsistent	Neutral	
<u>X</u>			Whether the proposed zoning map amendment implements the policies of the adopted Comprehensive Plan and preferred scenario map Character District-4 should be "Considered" in the Mixed Use Low Place Types per Table 4.1 of the Land Development Code.
		<u>N/A</u>	Whether the proposed zoning map amendment is consistent with any adopted small area plan or neighborhood character study for the area This site is located within the limits of the Comprehensive Plan and the draft North of Campus Area plan is currently under review
		<u>N/A</u>	Whether the proposed zoning map amendment implements the policies of any applicable plan adopted by City Council See above – the draft area plan for North of Campus is still under development and has not yet been adopted.
		<u>N/A</u>	Whether the proposed zoning map amendment is consistent with any applicable development agreement in effect
<u>X</u>			Whether the uses permitted by the proposed change in zoning district classification and the standards applicable to such uses shall be appropriate in the immediate area of the land to be reclassified The zoning change and subsequent land development requirements will allow for similar density in development but will allow development closer to the Right of Way, matching redevelopment within the area.
<u>X</u>			Whether the proposed zoning will reinforce the existing or planned character of the area See above – redevelopment in the area has utilized denser flexible development patterns, which the CD-4 District accommodates.
<u>X</u>			Whether the site is appropriate for the development allowed in the proposed district All uses allowed within Character District-4 should be appropriate for this location
