Description: Dispatch-Steel & Shoring Add

We are pleased to offer the following specifications and pricing to make the following changes:

CO #C20 - RFI #94 Dispatch Added Structural Steel & Shoring due to the existing roof is baring on a block wall shown to be demoed which would leave the roof to collapse.

The demo and scheduled construction in the Dispatch area has been stopped from the discovery of this condition on 6/11/21. The fabrication date or install of new structural members will not be known until the attached Dennis Steel shop drawings and the cost of this change order are approved. This is a critical time sensitive situation due to the stoppage of work in this area.

[6/14/2021 Trimbuilt Construction, Inc. - Lacey Reitzler]

Roof trusses are baring on the existing Brick / Block walls (See attached document with screen shots).

The attached document with pictures shows a beam and column stopping at the CMU/Brick wall. The court yard CMU/Brick wall that is separating Dispatch from the Court Yard is baring for the existing roof trusses over Dispatch.

The attached document with pictures shows a flange where the existing roof system is directly baring on the CMU /Brick

At this time Trimbuilt can not remove the existing wall as show on the drawings due to the roof would not have support. Also on hold is the structural steel for the Court Yard roof.

Provide structural direction.
