RE: Preliminary Cost Estimate for Installation of Electric Distribution Facilities for **San Marcos Relocation of the Existing URD Line Project.**

Dear Mr. Condor,

Per your request, I have reviewed the information provided and developed a preliminary cost estimate. Based on his submittal on **5/10/2023**, the preliminary cost estimate is **\$117,000.00**. This cost estimate includes Bluebonnet Electric relocating and installing the Overhead Facilities for your project. Please note that this is only a preliminary cost estimate and not the actual cost of providing electric service to your project. Bluebonnet will provide an actual cost estimate once you have submitted all required project documents and agreed upon the final design.

Please call me if you need additional information.

Sincerely,

Rodney Gerik
