Mr. Garcia,

**Recommendation of Award**

On Thursday, June 20, 2019 at 2:00 PM, a bid opening for the Reclaimed Water Expansion Project – Pump Station Improvements was conducted at the Municipal Building. This bid opening concluded with the receipt of three bids for construction of the projects. The following table summarizes the results of the bids as received.

Contractor	Total Bid Price
Keystone Construction Austin, Texas	\$892,060.00
RP Constructors, Inc. New Braunfels, Texas	\$914,000.00
Black Castle General Contractors New Braunfels, Texas	\$1,116,260.00

While tabulating the bids a math error was discovered in the Bid from RP Constructors. Correspondence with RP Construction confirmed that it was their intent to bid \$914,000.00 and RP Construction requested that their bid be withdrawn. This leaves Keystone Construction as the low bidder for the project. On the basis of the review of the qualifications of the firm, RPS recommends the City award a construction contract for the Reclaimed Water Expansion Project – Pump Station Improvements to Keystone Construction in the amount of \$892,060.00.

We are available to address any questions as needed.

Yours sincerely,

for RPS Group, Inc
