Background Information:

In prior years rate modeling indicated multi-year 15% rate increases were needed to support operating expenses and proposed CIP. There was not a rate increase in FY20 due to the pending outcome of the rate model restructure. During FY20 staff presented City Council restructured rate models with constrained CIP (capital improvement projects) for drainage projects to support a 6.5% rate increase.

A rate adjustment of 6.5% is recommended for FY21.

Residential rates will be adjusted for small lots by \$0.34, medium lots by \$0.79, and large lots by \$4.97 per month. Commercial rates will be adjusted by \$0.79 per ERU per month.
