Background Information:

As a part of end of year procedures, actual expense to budget variances by department and accounts are analyzed. Some of these variances are covered by savings from other line items within the department or with savings from another department. Some of the expense variances are directly related to a revenue component and require a budget amendment. For FY20 there is only one budget amendment that is needed.

In FY20 our economic development incentives performed extremely well which resulted in higher than expected sales tax collections and economic development incentive payments. The City has a non-disclosure agreement (NDA) with Best Buy so we cannot provide additional information regarding the specific amounts of sales tax collected. The General Fund budget will be amended \$8,423,553 from these excess revenues to increase the economic development incentives budget.

This amendment will be presented to the Finance and Audit Committee on February 12, 2021.
