CITY COUNCIL GOAL: Beautify and Enhance the Quality of Place for San Marcos

COMPREHENSIVE PLAN ELEMENT(s):

Land Use: Goals 1 & 2.

Neighborhoods and Housing: Goals 2 & 3.

BACKGROUND:

The subject site fronts onto Hunter Road and consists of one approximately 9.717 acre unplatted parcel out of the Juan M Veramendi Survey. Surrounding uses include a mix of multi-family and single-family residential as well as big-box retail to the rear. The property is currently being used as a mobile home park.

MF-24 zoning would allow the construction of apartments, as well as other less-dense residential structures, e.g. duplexes, townhomes, or single-family structures. No plans have been submitted at this time; however, all requirements in the Land Development Code must be met.

The property is located within a Medium Intensity Zone on the Preferred Scenario Map. A request to MF-24 can be made without a Preferred Scenario Amendment in this zone as per the zoning translation table. While there are single-family residences in the area, they are separated by Hunter Road, which is a major arterial, and by a retaining wall.

A review worksheet is attached to this report which details the analysis of the zoning change using Comprehensive Plan Elements. Staff presents this request to City Council and recommends **approval**.

A public hearing at the Planning and Zoning Commission was held on June 9, 2015. No one spoke during the public hearing and the Commission unanimously recommended **approval** of the request.
