BACKGROUND:

The subject property is approximately 0.951 acres in size and is located at 1346 Thorpe Lane. The site is currently zoned Office Professional (OP) and includes an existing one-story building with associated parking. The building is approximately 4,920 square feet and is currently occupied by a dentist office and two additional vacant suites. The applicant intends to lease the remaining vacant suites with retail and restaurant uses.

The subject property is located in the Midtown High Intensity Zone as designated on the Preferred Scenario Map. Currently, the property owner can develop the property in accordance with Office Professional (OP) zoning which is restricted to predominantly professional and medical office uses, as other retail and restaurant uses are restricted in this district. The proposed Community Commercial zoning would allow a variety of commercial uses such as office, retail, personal business services, restaurant, and other similar uses.

The zoning change request has been reviewed using The Comprehensive Master Plan, Vision San Marcos: A River Runs Through Us as well as the guidance criteria in Section 1.5.1.5 of the Land Development Code.

Staff recommends **approval** of the zoning change request.
