Flood Protection Master Plan

Background Information:

This presentation will provide the City Council an update on the refined alternatives that have been evaluated for the Blanco Riverine Project. This is one of the five infrastructure projects that the City Council directed and are included in the City's approved CDBG-DR Action Plan.

The goal of the meeting is to solicit direction from the City Council on the alternative to proceed with environmental clearance and design in order to meet the construction completion deadline of December 2022.

Council Committee, Board/Commission Action:

Alternatives:

Click or tap here to enter text.

Recommendation:

Based upon the evaluation process staff recommends proceeding with environmental clearance and design on the Berm & Diversion 2 options.
