Background Information:

The City's current enterprise resource planning and financial system, Tyler Technologies, was expanded in 2016 to include the Brazos eCitation system to support the Police Department.

This proposed Change in Service is for additional expansion of the eCitation system to include additional hardware and software to support and enhance capabilities of the PD Patrol Operations, Park Rangers, Animal Services, Code Compliance and the Fire Marshal. The total amount of the expansion is \$79,977.00 and the estimated annual renewal and maintenance for these upgrades is \$36,032 per year. Staff is requesting that Council authorize four additional years of maintenance.

The electronic ticketing and data collection tool is capable of capturing data for issuing and processing citations; through a paperless ticket writing system it reduces the staff time needed to process citations by updating the court system via wi-fi when on a shared network.
