Background Information:

In 2003, City Council approved Ordinance No. 2003-33 to establish a minimum of standards for commercial solid waste collection and transport activities in the city, in order to ensure orderly operations and to minimize adverse impacts on the public; and to provide for compensation to the city for wear and tear on city streets resulting from commercial solid waste collection and transport in the city.

At the Budget Workshop on June 30, 2020, direction was given by City Council to increase the street use fee from 5% to 7%.
