Background Information:

This request is to amend the City's contract 218-298 with Dell Marketing L.P. through DIR contract DIR-TSO-3763, to replace out of warranty core servers and server networking hardware, as well as end-user as part of the City's 5-6-year replacement lifecycle for hardware. This will be used to replace FY2020 and FY2021 out of warranty equipment. The purchases for FY2020 was deferred due to financial policies direction in response to COVID and funding concerns. All of the equipment being replaced is older than 5 years and has exceeded the manufacturer warranty support period, or the warranty will be expiring within the FY2021 budget year.

These purchases will all include maintenance and support for 5 years and the City will realize cost savings in purchasing the 5-year maintenance and support up front. By upgrading this equipment, we will be improving the overall infrastructure performance and reliability and provide a more efficient work experience for our employees.

We currently have a quote for the purchase of the servers and network hardware for a total of \$301,939.32. The remaining funds \$298,060.68 will be used to replace end-user devices to include one-third of Public Safety in-vehicle laptops.
