Background Information:

MobileEyes Inspector is a management system that increases the number of fire safety inspections completed by the City Fire Marshall by reducing time and paperwork with capturing inspection data.

MobileEyes Mobile Inspection Software was purchased as a sole source supplier by the City Fire Department on December 1, 2018, in the amount of \$20,864 through the City's contract with Tyler Technologies, Inc. A previous change in service increased the contract amount by \$26,571.

This request is for an annual renewal in an estimated amount of \$14,180, bringing the total contract amount to \$61,715. The attached resolution also authorizes three anticipated annual renewals to be awarded administratively in the form of an Authorization of Change in Service.
