**Background Information:**

**Staff is requesting Council's direction on combining several CDBG housing rehabilitation funding allocations into one City-administered program for each funding year.**

Southside Community Center ("Southside") administered a housing rehabilitation program using CDBG Entitlement funds from the City for many years. Southside has been allocated CDBG funding for housing rehabilitation each year over the past four years (Program Years 2019-20, 2020-21, 2021-22, 2022-23. Now that their Executive Director retired last year, Southside no longer has the in-house expertise to run a housing rehabilitation program, and the Southside Board has decided to focus on other services to the community instead.

In addition to allocating funding to Southside, the City allocated funding to "Emergency Repair" and "Priority Repair" programs in Program Years 2019-20, 2020-21, and 2021-22. This funding was for smaller, urgent housing repairs such as leaking plumbing.

All housing rehabilitation programs were placed on hold by the City at HUD's request in 2020 for a complete

revision. The programs are almost ready to move forward, since staff has revised the policies and procedures and procured contractors to do the work. The one remaining piece is procurement of an independent estimator who will create scopes of work and cost estimates; this procurement will be complete in 2023.

Because Southside will no longer be rehabilitating houses, staff is proposing amending the CDBG Action Plans for all four years to move the funding allocated to Southside to be administered by the City instead.

In addition, since the Southside amendments are necessary, staff is also proposing combining the “Emergency Repair” and “Priority Repair” funding into a single City administered Housing Rehabilitation Program each year that can provide both substantial rehabilitations and emergency repairs.

### **Note About the Number of Houses and Total Funding Available**

The rehabilitations completed by Southside were generally \$15,000-20,000 per house, repairing the worst elements of each house. HUD now emphasizes bringing each house into a wholistic standard living condition, by rehabilitating more aspects of each home. In addition, costs have risen in housing construction materials. It is expected that the program will now spend \$35,000-50,000 per house. Emergency repairs that would have cost an average of \$5,000 per house are now expected to be closer to \$10,000. The City has \$860,283 available in CDBG funding for Owner Occupied Housing Rehabilitation total for the four program years. This provides for approximately 24 houses.

The City also has \$867,000 available in American Rescue Plan Act funding for Owner Occupied Housing Rehabilitation, which will accommodate another 24 houses. CDBG Single Family Rental Rehabilitation funding of \$271,000 completes the total available for housing rehabilitation at this time, all of which will be enacted through the City-administered program.

**Staff is requesting Council’s direction on setting a Five Year lien term for housing rehabilitations that exceed \$25,000.**

Typically CDBG programs stop being grants and start being deferred forgivable loans at \$25,000. This is not a direct CDBG requirement but is considered a best practice to protect the real property investment in affordable housing over time. Staff recommends setting a five year lien term, reduced monthly by a percentage of the loan amount. The proposed five year term is the same as City Council approved for homes constructed on the owner’s lot with CDBG-Disaster Recovery funding. Because this would be a deferred payment, forgivable loan, the homeowner would not have to pay the cost of rehabilitation back unless the home is sold, at which

time the remaining balance on the loan would be paid to the City. Staff is requesting direction on the number of years for the lien term.

### **Next Steps**

The proposed amendments to the four annual action plans require a public hearing May 16, then a 30 day public comment period May 17-June 17, and finally City Council consideration for approval July 3.
