Choose an item.

Background Information:

A section of 12-inch waterline under Sessom Drive between Ed JL Green and Aquarena Springs/University ruptured in November 2017. The rupture occurred where this line currently passes through a box culvert just south of the Salt Grass Restaurant.

This project will provide an engineering design to replace the section of waterline between Ed JL Green and the Sessom/University intersection. This section of waterline together with other connected segments are past their useful service life and have suffered several breaks in recent years.

The estimated construction cost is \$210,000 and design is scheduled for completion by the end of July 2018 with construction starting in Autumn of 2018.

Council Committee, Board/Commission Action: N/A
