Background Information:

Effective security systems protect government buildings and prevent interruptions to operations. The City contracts with Knight Security Systems LLC for various security services including video surveillance, access control, intrusion detection, fire detection and alarm monitoring solutions. Contracting with this vendor through the State ensures the lowest possible pricing, pre-negotiated contracts and a streamlined process.

The Texas Comptroller of Public Accounts Department of Information Resources (DIR) awarded a contract (DIR-SECPLAN-HLTH) for monitoring, managed and professional services, as well as a contract (DIR-TSO-3430) for equipment and professional services to Knight Security Systems. On October 1, 2018 the City of San Marcos awarded a contract to Knight Security Systems in the amount of \$34,619.17 for SecurePlan, a maintenance program.

The City will purchase additional professional services, equipment and SecurePlan support under the DIR contracts from Knight Security Systems in the amount of \$190,500 to continue the advancement of security within existing and new facilities.

With the ratification of the October 1, 2018 renewal of the SecurePlan support at the price of \$35,075.57, it will bring the total for all services and equipment to \$260,194.74.
