---

**File #:** Res. 2019-58R, **Version:** 1

---

### **AGENDA CAPTION:**

Consider approval of Resolution 2019-58R, approving an Agreement with LNV, Inc. for the provision of Professional Engineering Services for the Linda Drive Improvements Project in the estimated amount of \$875,688 contingent upon the engineer's provision of sufficient insurance in accordance with the agreement; authorizing the City Manager or his designee to execute this agreement on behalf of the City; and declaring an effective date.

**Meeting date:** April 2, 2019

**Department:** Engineering & Capital Improvements, Laurie Moyer, Director (by Lynda Williams, Purchasing Manager)

### **Amount & Source of Funding**

**Funds Required:** \$875,688

**Account Number:** C563.

**Funds Available:** \$1,608,000

**Account Name:** Debt Funded CIP-Linda Drive Improvements

### **Fiscal Note:**

**Prior Council Action:** June 20, 2017: City Council approved an On-Call List of qualified professional Engineers including LNV, Inc.

Stormwater Master Plan

**Background Information:**

This design contract is combining two CIP projects for project efficiency and economy of scale. Originally anticipated as a wastewater replacement project, it has been expanded to include the Linda Lane Improvements project. Construction will be accomplished with two projects.

The project design includes the following components:

- Replacement of approximately 7,000 feet of sewer main from the City's main lift station along Linda Drive north east to near the McCoy's headquarters building. This sewer is in a heavily deteriorated condition and needs replacement.
- Storm water improvements replacing and extending the existing insufficient system along Linda Drive and Sherbarb Avenue. Required improvements were identified in the stormwater masterplan.
- Water system improvements to upsize existing water mains and complete a loop to improve system reliability.
- Other street improvements to replace broken curb and gutter and driveways.
- Sidewalk extension along Linda Drive from Sherbarb St. to River Road.
- Construction phase services for both projects.

In 2017, the City issued solicitation #217-247 for the purpose of selecting qualified engineering firms to provide on-call professional engineering services for the CDBG-DR program. LNV, Inc., was selected from the approved on-call list.

Construction is estimated at \$5,400,000 for the two projects. The first project is expected to go to construction in FY 2022.
