Background Information:

In August 2003, the City entered into an Enterprise Agreement with Microsoft. The Microsoft Enterprise Agreement allows the City to purchase licenses and software assurances, for a core group of applications for the organization and use on our servers from Microsoft Corporation. The applications that are included in the City's agreement are as follows: Microsoft Office 365 Professional (810), Visio (10), Project client access licenses (22) Project Server (1), Microsoft desktop operating system upgrades (455), virtual desktop operating system upgrades (400), Windows Server operating systems (19), MS SQL Standard (15), MS SQL Enterprise (12), Enterprise Windows client access licenses (600), Azure Active Directory (600), and Remote Desktop client access licenses (15). Software assurance allows the City to receive the latest version of software, support, training, software utilities, and planning services for the products while under the agreement.

City Council approval is requested to renew the Microsoft Enterprise Agreement for four (4) years through the State Department of Information Resources contract DIR-TSO-4092 held by SHI Government Solutions for the total amount of \$1,123,037.48. This annual renewal will be effective October 1, 2019 through September 30, 2020, with the remaining renewals administratively renewed for the next three (3) years thereafter.
