- ☐ Not Applicable

Master Plan: *[Please select the corresponding Master Plan from the dropdown menu below (if applicable)]*

Choose an item.

Background Information:

The applicant is requesting an Alternative Compliance to deviate from the maximum block perimeter standards that apply within the Light Industrial zoning district.

The maximum block perimeter for Light Industrial zoning is 5,000 feet. If approved, this request would extend the block perimeter to approximately 7,400 feet, based on the Transportation Master Plan.

Based on potential block perimeter measurements, in order to maintain the 5,000 lineal foot block perimeter, the applicant would be required to place a street adjacent to the Hays Detention Center along the longest face of the lot.

Adding an additional road frontage adjacent to the detention center has the potential to hamper security measures associated with a secured correctional facility.
