Solid Waste Master Plan

Background Information:

Texas Disposal Systems has provided residential and city facility garbage service since 2003. In 2009, curbside single-stream recycling service was added. In 2010, multifamily single-stream recycling service was added. In 2015, curbside green waste services were added. In 2015, the annual contractual rate increase was changed to a fixed 3% from a variable Consumer Price Index.

This request is for the final extension to the contract for an additional five-year term or through September 2025 and for Council approval for the associated estimated annual increases of 3% or approximately \$400,000 for the next five-years.

Going forward and near the end of the existing contract term, staff recommends issuing a solicitation on the open market to provide competitive opportunities to qualified disposal and recycle businesses for the purpose of entering into a new agreement.
