**Background Information:**

The medium voltage switchgear building is a main component for achieving project scope of increasing the electric reliability at the City's wastewater treatment plant. Once this building is in service, the City will be able to automatically transfer the plant to the backup source during outages and will gain more detailed data about the treatment plant's energy usage and power quality.

Eight (8) bids were received on October 1, 2020. The apparent low bidder failed to comply with the bidding requirements, and is therefore deemed nonresponsive making the bidder disqualified. Award is recommended to the lowest responsible bidder, Electro Technical Industries, Inc., from Houston, Texas, that did submit a bid responsive to all bid requirements, in the amount of \$802,300.
