- ☐ Core Services
- ☐ Not Applicable

Master Plan: *[Please select the corresponding Master Plan from the dropdown menu below (if applicable)]*

Transportation Master Plan

Background Information:

This Council request is to approve the Authorization for Change in Service (ACIS#1) to add engineering services for an option to include: improvements to Moore Street from Hopkins Street to Hutchison Street, traffic analysis for Moore Street between Hopkins Street and Hutchison Street, an option for a southbound left turn lane along Moore Street at Hutchison Street, and streetscape improvements for the project limits in conformance with the Downtown Pattern book.

Preliminary engineering services for Hopkins Street Improvements from Guadalupe Street to Moore Street was initiated in January 2020. The services for the initial phase of the project included topographic and boundary/ROW survey, subsurface utility engineering, and preliminary engineering for the reconstruction of street, water, wastewater, stormwater, and electric infrastructure along Hopkins Street from Guadalupe Street to Moore Street.

The objective of this project was to upgrade this segment of Hopkins Street to be compliant with the Complete Streets ordinance. Additionally, the scope of work included widening Comanche Street to add a dedicated left turn lane onto Hopkins Street to enhance intersection capacity and improve traffic operations and safety.

Council Committee, Board/Commission Action:

NA

Alternatives:

NA

Recommendation:

Staff recommends approval of this change in service #1 in the amount of \$57,915.00.
